We've added nine new games!

Last month, The Skimmer released a compilation of [role-playing/simulation games to educate stakeholders, professionals, students, and the general public about aspects of coastal and marine conservation, management, and adaptation](#). We've just added nine more games to the game compilation. Check out the newbies:

The screenshot shows the website's navigation bar with links for Home, Current Issue, All Issues, Trainings, Tools, Games, Subscribe, About Us, and Contact Us. Below the navigation is a breadcrumb trail 'Home >' and a main heading 'Serious Games for Marine Conservation and Management'. A filter bar allows users to search by Type, Target Audience, and Language, with an 'Apply' button. Below the filter is a table listing nine games with their titles, descriptions, and target audiences.

Title	Description	Target Audience
Aquatico	Raises awareness about ecosystem connections	Elementary and secondary school students, General public
Cards Against Calamity	Teaches stakeholders about strategies they can use to build a more resilient community	Stakeholders, University and graduate students, Elementary and secondary school General public
